**Management has taken the time to research and select preferred vendors or contractors for the services you may need to purchase surrounding this event. Not all of these necessarily will offer the lowest overall cost, but rather superior service at a fair price. Please keep in mind that only Official Contractors will man the service desk, be allowed in early and if**

**there is a problem of any type with a non-official contractor, we as show management have no recourse. If there should be a problem with an official contractor it can be addressed much more easily and professionally.**
